Changeover of Reports and Evaluations

As of January 2024, all reports and evaluations that were previously available in Personalwolke are grouped in one folder in the menu and some have been redesigned.

This measure supports a better structure of the Personalwolke offering and a clearer availability of evaluations of your personnel data.

Reports from the Personalwolke Travel and Personalwolke Project Time areas can also be found in this new menu item.

All reports configured individually for your company have also been moved and are now filed under "**Customer Reports**".

> NOTIZ
> Note: these reports have not been changed. Since they were created specifically, it is not possible to offer a description here in the manual.

To help you find your way around the new Reports folder, we offer the following information:

- Comparison of the previous and the new reports and evaluations (see below)[1]
- List of the accounts that were previously used in the reports and where they can now be found[2]
- List of the accounts in the new reports[3]
- Description of the new reports[4]
- FAQs[5]
