Update 2020-09-15

Upgraded to version 4.15.3.
This resolved the tickets of the following versions:

- 4.14.0[1]
- 4.14.1[2]
- 4.14.2[3]
- 4.15.0[4]
- 4.15.1[5]
- 4.15.2[6]
- 4.15.3[7]

General Changes

#1 Filtering Open Requests

A button has been added to the "Open Requests" workflow list, which applies the filter only when the button is clicked.

WD-11021[8]

#2 Automatic Deletion for Document Folders

Documents in folders can be deleted automatically after a predefined period. The settings can be configured differently for each folder.

WD-11537[9]

#3 UX Improvements in the Absence Client

Time periods can be selected by holding down the mouse button. The fields are filled in automatically. If a new entry overwrites existing bookings or absence reasons, a warning message is displayed.

WD-11274[10]

New Customizing Options

As part of a customizing project, the following features can be activated for you. For more information, contact us at sales@workflow.at.

#1 Document Control via Role Permissions

Administrators of the HR-Expert module can control the viewing permission for documents or entire folders via role assignment.

WD-11536[11]

#2 Improvements in the Correction Client

Optional button in the daily view to reinitialize the day, thereby deleting all bookings, correction remarks, account corrections, as well as absence entries and planning entries.

Support for rescheduling in the daily and monthly view, and thus the ability to plan daily schedule changes in the future (e.g., changed target time, changed core time, permissions for overtime or surcharges)
