Workflow for Travel Expense Reports

Once domestic trip expense reports[1], international trip expense reports[2] and after-the-fact receipt entries[3] have been entered, they appear in the workflow[4] of the supervisor.

The view looks like this:

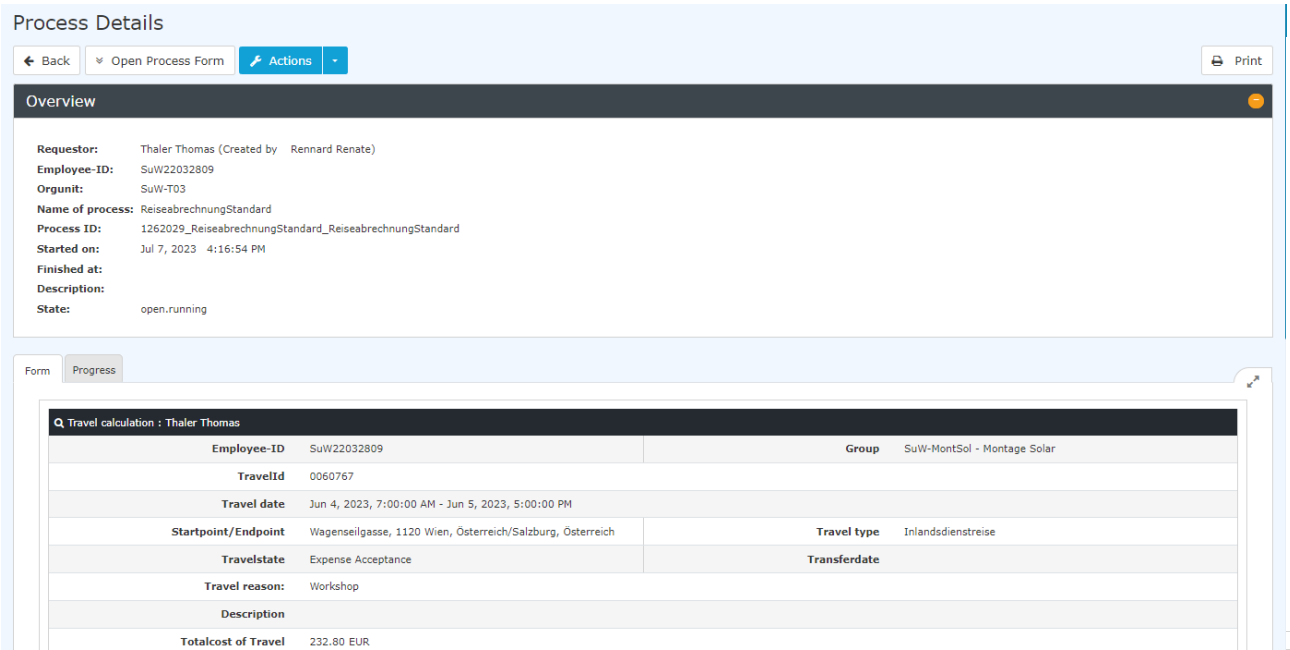

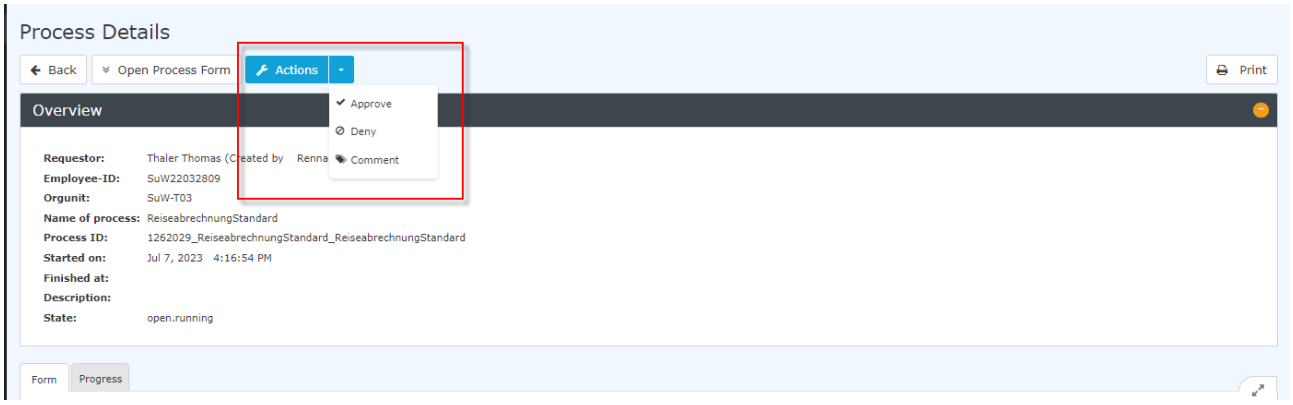

As usual when processing tasks in the workflow, the task can be processed immediately (right column with red marking) or you can open a detail view.

Opening the detail view shows the following

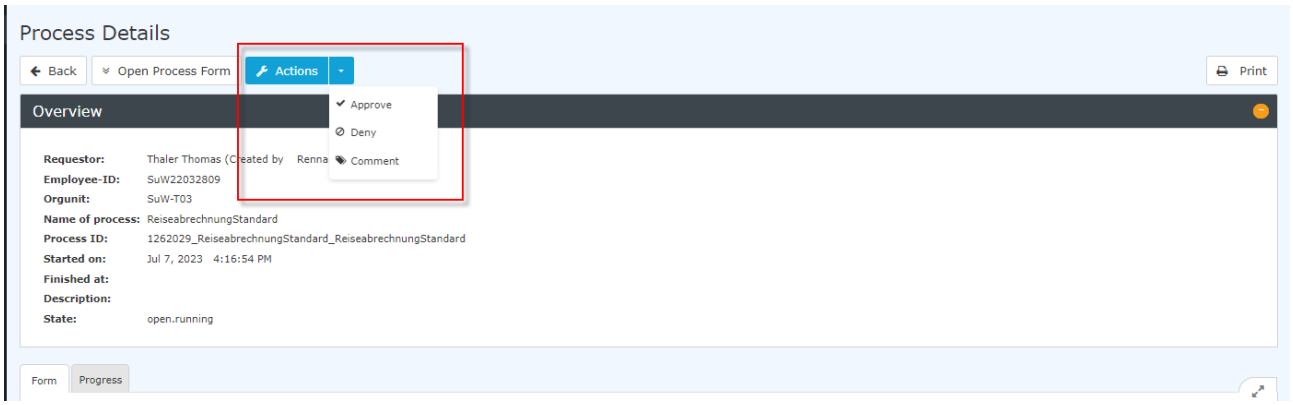

1. Domestic Trip Expense Report

(Note: because of the length of the view, it is shown in several screenshots.)

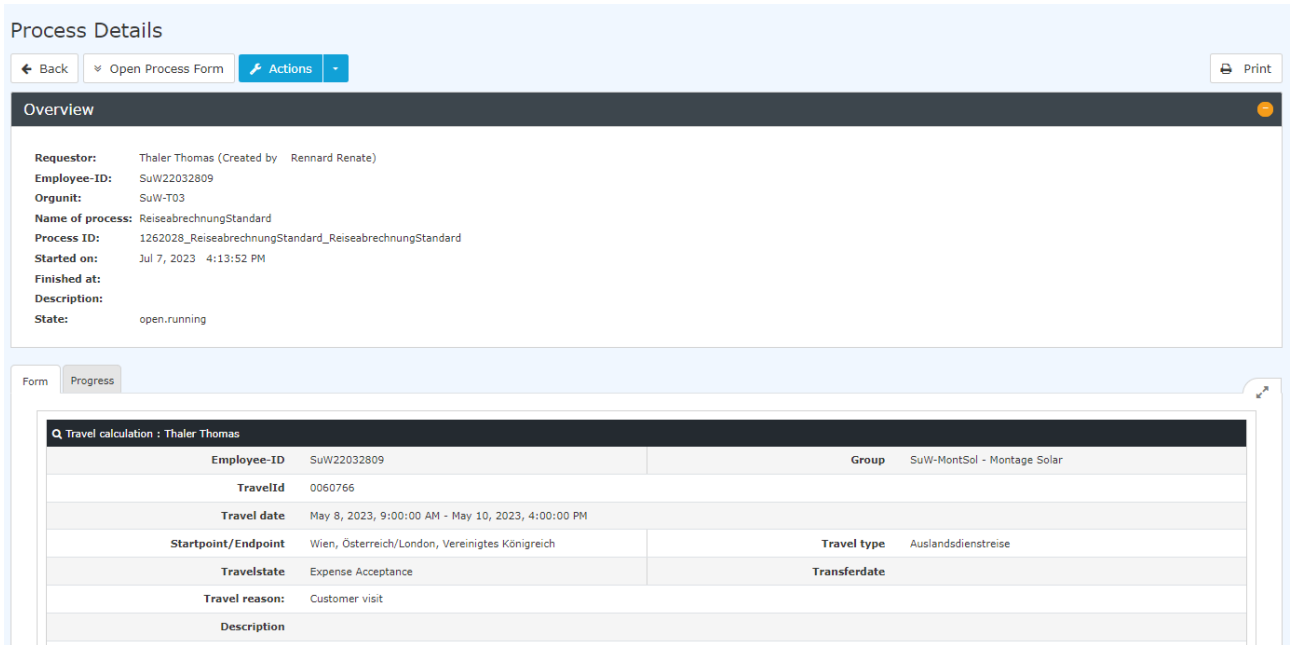

You can also edit the task from the process details by clicking the "Actions" button:
