4.59.8

Release Notes - Webdesk - Version 4.59.8 - March 7, 2025

Bug Fixes

- [WD-18416[1]] - The "Show Filter" parameter in ta_getOrgJournal is now set to "Yes" by default if a filter is defined.
- [WD-18440[2]] - Data defined by JavaScript conditions is now also exported correctly in the client-side Excel export.
- [WD-18488[3]] - Creating custom JournalApproval process definitions is now possible without errors.
