4.63.27

Release Notes - Webdesk - Version 4.63.27 - June 11, 2026

Bug Fixes

Reporting

- [WD-20245[1]] - Fix for an issue where the Excel export of report evaluations always exported the same data, regardless of the selected filters.

Other Bug Fixes

- [WD-21036[2]] - Fix for an issue where editing system messages resulted in an error message.
