4.52.4

Release Notes - Webdesk - Version 4.52.4 - June 21, 2023

Bug Fixes

- [WD-15738[1]] - Bug fix in the month approval: the approval button is now also displayed when the previous month may not be edited
- [WD-15739[2]] - Bug fix in the account correction: incorrect values are no longer calculated when multiple relative corrections are made for the same day on the same account
- [WD-15778[3]] - Bug fix when editing process drafts: the "Save & Close" button did not work properly
- [WD-15784[4]] - Fixed an issue that prevented opening the group calendar when the start of a person's time tracking was in the future
