4.58.24

Release Notes - Webdesk - Version 4.58.24 - November 18, 2024

Bug Fixes

- [WD-17804[1]] - Fix for an issue in the access permissions function that automatically set the default value for the approval status to "rejected". The default value is now "approved" again.
- [WD-17792[2]] - In the travel expense report area, some field labels were corrected to use the term "trip types" (instead of "trip kinds") consistently.
- [WD-17771[3]] - Fix for an issue in Project Time that occurred when importing files as soon as they contained column headings with a space or a special character

Improvement

- [WD-17752[4]] - Customers can now save drafts in the custom process form Security Questionnaire (EventSecurityQuestionnaireForm.proc).
