4.63.5

Release Notes - Webdesk - Version 4.63.5 - February 26, 2026

Improvements

Travel Expenses

- [WD-20270[1]] - Extension of the travel expense configuration with a check function that ensures at least one general attachment has been uploaded.

Bug Fixes

Time & Attendance

- [WD-20178[2]] - Fix for a display issue when editing field groups in time tracking, where group names were incorrectly changed.

Interfaces

- [WD-20300[3]] - Fix for an error that caused the SummarizeConnector not to return correct values in the result calculation.
- [WD-20026[4]] - Fix for an error message in the server logs when executing a connector link, with no functional impact.

NFC

- [WD-18980[5]] - Fix for an issue with the filter for NFC tags, which previously did not restrict results by the selected criteria.
