4.0.33

Bug

- [WD-5447[1]] - Creating a new client results in a TransientObjectException
- [WD-6313[2]] - NPE when trying to start workflow process (e.g. "Holiday Request") and person has an exit date on TA system
- [WD-6736[3]] - Design for Administration Part of Kiosk-app
- [WD-7045[4]] - Change State List does not display all fields in a correct way
- [WD-7168[5]] - Do project time booking: Mobile view does not show bookings
- [WD-7274[6]] - editTaskTimeShares: when saving to HrPersonJob each task assigned to the job creates its own entry in the database table
- [WD-7275[7]] - HRX: Future employees should not be displayed in "active employees"
- [WD-7343[8]] - Cannot terminate an employee in HR Expert
- [WD-7353[9]] - SDL Paginator navigation with bottom copy getting out of sync
- [WD-7359[10]] - Cannot create a ImportExchangeRate job
- [WD-7361[11]] - Get Device ID of Samsung A6 Tablet to be linked against Kiosk ID
- [WD-7367[12]] - HR Expert: When defining two main cost centre both with 100 % one disappears
- [WD-7368[13]] - Regression: Row content not populated on mobile views
- [WD-7392[14]] - Absence client: Minimal width on cells missing!
- [WD-7412[15]] - When starting a project start the counter with 00:00
- [WD-7416[16]] - Updating label from widget in classic skin
- [WD-7420[17]] - Change password after password reset does not work
- [WD-7424[18]] - Missing cache-replication for logintoken_cache
- [WD-7431[19]] - Not allowed groups/persons showing in wfList actions' filter

Fehler

- [WD-7311[20]] - Add client-side paginator for Calender-overview action when no grouping is enabled

Improvement

- [WD-6507[21]] - Switch from Password encryption to hashing
- [WD-6810[22]] - Integrate NFC Reading into App
- [WD-6925[23]] - Write little java program which sets the datasource connection credentials in webdesk.properties
- [WD-6980[24]] - NFC Management: Old card's issuer + Old card's validity
- [WD-6982[25]] - NFC Management: "Yes, clear the card" button is on safe position to avoid incidental confirmation
- [WD-7282[26]] - Allow relation between project and Kiosk
- [WD-7288[27]] - Let edit additional fields inside PtmProject editor to serve as defaults for PtmTimeEffort
- [WD-7307[28]] - NFC Management in Webdesk: Overview Page - Improvements
- [WD-7308[29]] - NFC Management in Webdesk: Detail Page - Improvements

- [WD-7310[30]] - Add new NFC tag: Validate tag number for uniqueness + Redirect to detail page after creation
- [WD-7350[31]] - Make welcome messages related to the user's timezone
- [WD-7365[32]] - HR Expert: Incomprehensible Error message when employee has two main cost centre
- [WD-7366[33]] - HR Expert: Incomprehensible Error message when the sum of the cost centre are over 100 percent
- [WD-7429[34]] - Allow Access to Javamelody for Users having action-permission for po_openJavaMelody.act

New Feature

- [WD-7037[35]] - Custom Job: Defining Big and small Daily allowance
- [WD-7245[36]] - Notify employee about rejected project-time bookings
- [WD-7410[37]] - Project Structure gets boolean flag "Unproductive project structure" for Kiosk usage

Task

- [WD-6916[38]] - Provide a DEV-Server which updates daily with GIT master (or the dev?) branch
- [WD-7358[39]] - Refactor InClauseBuilder, PartitioningHelper and GenericHibernateDaoSupport.find() to use the same code
- [WD-7371[40]] - Implement business logic necessary for "partial clients" in HrAuthorization
- [WD-7388[41]] - Extend Kiosk App Jenkins Job to automatically create an APK
