4.64.15

Release Notes - Webdesk - Version 4.64.15 - July 7, 2026

Improvements

Other Improvements

- [WD-21331[1]] - Support for splitting implementation plans into individual Jira issues was improved.

Bug Fixes

Project Time Tracking

- [WD-21325[2]] - Fix for an issue where an error message could occur in certain situations when saving a project.

Reporting

- [WD-21315[3]] - Fix for an issue where technical keys were sometimes displayed instead of translated texts in HR reports.

User Settings

- [WD-21310[4]] - Fix for an issue where the person search was case-sensitive and an empty search criterion was displayed.

Administration

- [WD-21281[5]] - Fix for an issue where the active jobs page displayed only the jobs of the server currently being accessed.

Mobile App

- [WD-21285[6]] - Improvement of the display in the mobile app so that content in portrait mode is no longer cut off.

Other Bug Fixes

- [WD-21324[7]] - Fix for an issue where existing models could not be adopted in the model selection of the AI agent editor.
- [WD-21244[8]] - Fix for a display issue where the dialog for creating a new folder required unnecessary horizontal scrolling.

Miscellaneous

- [WD-21279[9]] - Optimization of permission management for better performance and correctly separated caching.
