4.64.23

Release Notes - Webdesk - Version 4.64.23 - July 28, 2026

Improvements

Time & Attendance

- [WD-21616[1]] - Optimization of the display of the attendance overview through staggered loading of the display data for faster rendering of the first visible entries.

Travel Expense Tracking

- [WD-21619[2]] - Improvement of the display and calculation of prepaid amounts in the travel expense tracking area.

UI / UX

- [WD-21644[3]] - Improvement of the display after a successful failover so that the connection loss icon no longer appears incorrectly.

Bug Fixes

Time & Attendance

- [WD-21674[4]] - Fix for an issue where editing persons was not possible on TA installations without an HR license.

Project Time Tracking

- [WD-21617[5]] - Fix for an issue where saving project permissions could fail under certain circumstances.

Travel Expense Tracking

- [WD-21602[6]] - Fix for an issue where editing incomplete travel expense report drafts could result in an error.
- [WD-19727[7]] - Fix for an issue where certain deductions could not be deleted in the travel expense report configuration.

HR Expert

- [WD-21682[8]] - Fix for an issue where indexing failed when a person had multiple concurrent employments.

Administration

- [WD-21645[9]] - Fix for an issue where deleting a client with an assigned legislation could fail.

Interfaces

- [WD-21592[10]] - Improvement of the logging at the completion of connector synchronizations so that the duration and result are traceable even for successful runs.

- [WD-21583[11]] - Fix for an issue where certain interface jobs had unnecessarily long runtimes because records were saved multiple times even when there were no changes.

Other Bug Fixes

- [WD-21590[12]] - Fix for an issue where an unusually high number of user sessions was caused by monitoring requests.
- [WD-21589[13]] - Fix for an issue in the replication of cache messages that could lead to data inconsistencies when nodes were restarted.
- [WD-21582[14]] - Fix for an issue that caused certain server processes to regularly become unreachable.
