4.64.41

Release Notes - Webdesk - Version 4.64.41 - September 15, 2026

Bug Fixes

HR Expert

- [WD-22367[1]] - Fix for an issue where saving a position with an existing competency assignment could fail under certain circumstances.
- [WD-22360[2]] - Fix for an issue where the selected employee could be lost when saving a position assignment in HR Expert.
- [WD-22265[3]] - Fix for an issue where certain positions were not displayed in the "Position Plan" report after a reassignment.

Miscellaneous

- [WD-22320[4]] - Migration of the remaining automated tests from JUnit 4 to JUnit Jupiter for a modernized test infrastructure.
- [WD-22229[5]] - Optimization of the automated tests by reusing a MySQL test container for multiple test runs.
- [WD-22000[6]] - Migration and standardization of the automated integration tests for an improved test environment.
- [WD-21994[7]] - Optimization of the test environment and performance improvement by adjusting the Spring test contexts.
