4.64.43

Release Notes - Webdesk - Version 4.64.43 - September 22, 2026

New Features

Time & Attendance

- [WD-22420[1]] - New function: In the journal, the desired employment can now be selected when there are multiple employments in order to view the associated time bookings.

Improvements

Time & Attendance

- [WD-22447[2]] - Revision of the management of client-specific error reasons to simplify assignment and display and to optimize the data model.

Interfaces

- [WD-21805[3]] - When using the SeperatorFileConnector, archived files are now automatically given a timestamp to make file names unique.

Bug Fixes

Time & Attendance

- [WD-22513[4]] - Fix for an issue where an error could occur when switching to another action in the journal with a different employment selected.

Project Time Tracking

- [WD-22316[5]] - Fix for an issue where incorrect structure selection details were displayed in the project time report.

Travel Expense Tracking

- [WD-22432[6]] - Fix for an issue where the calculation of the total was incorrect for travel expenses with special receipts in a foreign currency.

UI / UX

- [WD-22436[7]] - Fixed the issue where the side flyout menu was displayed behind the tab bar and was therefore partially hidden.

Miscellaneous

- [WD-22450[8]] - Cleanup of technical legacy issues and correction of the module documentation in the seminar management area, with no impact on existing functions.
- [WD-22320[9]] - Migration of the remaining automated tests to the current test platform, with no impact on application functionality.
- [WD-21993[10]] - Migration of the test infrastructure to reusable test environments in the HR management area, with no impact on production functions.

- [WD-21676[11]] - Provision of a demo backend for local development and testing of time tracking.
