# 4.55.4

Release Notes - Webdesk - Version 4.55.4 - December 7, 2023

## Improvement

- [WD-16312[1]] - As of this version, it is no longer possible to create a test account for the 30-day trial version of Personalwolke with an email address from the following domains: gmail, gmx, icloud, hotmail, web, outlook, yahoo

## Bug Fixes

- [WD-16368[2]] - Fix for an issue in the HR Expert form customization of HR Expert when a default value was defined for an additional field. This led to an exception, making the corresponding HR Expert form unusable.
- [WD-16411[3]] - Fix for an issue that prevented the deletion of groups without members when the HR module was activated on the system only afterwards
- [WD-16438[4]] - Fix for an issue in the job ExecuteAndStoreReports that terminated prematurely when a person to be processed no longer had valid time and attendance data (TA-ID empty).
- [WD-16453[5]] - Fix for an issue that prevented saving account corrections in the Correction Client.
