4.53.0

Release Notes - Webdesk - Version release-candidate

New Features

- [WD-15314[1]] - New standard field "Comment" for certificates in HR Expert
- [WD-15403[2]] - New version of the "You have X unread, open tasks" banner on the start page. The buttons were replaced by icons
- [WD-14522[3]] - The booking list (OrgJournal) now remembers the displayed columns

Bug Fixes

- [WD-15005[4]] - The header row of the (monthly) journal (JournalV2 export) in the print version now spans the entire width of the printed page
- [WD-15205[5]] - Fix for an issue in the travel management area (in the area accessible to system administrators) that made it impossible to delete per diem deductions in the settlement definition
- [WD-15462[6]] - Fix for an issue in key-value types (in the area accessible to system administrators) that caused client-specific values not to be displayed after using page breaks
- [WD-15486[7]] - Fix for an issue in the group assignment area when creating a new person. This issue caused cost centers to also be displayed in the selection list of hierarchical groups.
- [WD-15540[8]] - Fix for an issue in the HR Expert area. This issue caused the termination date to be retained in the time tracking system even though the termination had been withdrawn.
- [WD-15568[9]] - Fix for an issue in the area accessible to system administrators that made it impossible to edit text modules for menu folders
- [WD-15607[10]] - Fix for an issue in HR Expert that prevented uploading documents using drag-and-drop.
- [WD-15623[11]] - Fix for an issue in the Personalwolke-Time/Personnel Master Sheet/Time Tracking area. This issue caused the same TA ID to be assigned to two different persons when time tracking was activated for them simultaneously.
- [WD-15834[12]] - Fix for an issue that could cause a "flicker" (brief overlay) in the menu when loading actions on the start page
- [WD-15642[13]] - Fix for an issue in the group calendar that caused the wrong font to be used in the description of calendar events
- [WD-15626[14]] - Fix for an issue that caused the wrong font to be used in the evaluation of certificates

Improvements

- [WD-15020[15]] - Journal (monthly journal, ta_getJournalV2): If the number of columns in a journal configuration to be saved is too large for display on a PDF page, a warning is now shown.
- [WD-15371[16]] - A po_manageFileTransfers can now only be started if a previously started transfer of this kind has also been completed.
- [WD-15501[17]] - Personalwolke-Time/Administration/Groups: The "Valid from" date of groups can now be edited

Note

Due to changes in the APIs, custom JARs must be updated for this version!
