4.52.18

Release Notes - Webdesk - Version 4.52.18

Bug Fixes

- [WD-15368[1]] - Fix for an issue where "Open Tasks" did not display the correct number of actually open tasks
- [WD-15994[2]] - Speed improvement when changing accounts in the correction client
- [WD-16015[3]] - Fix for an issue in the display of the time/date picker at the edge of the screen
- [WD-16088[4]] - Fix for an issue in the PersonProfilePage that prevented the correct display of the group name and group description
- [WD-16139[5]] - Fix for an issue that caused an unwanted HRX-TA synchronization when saving persons via connector
- [WD-16140[6]] - Fix for an issue in the correction client that occurred when uploading booking imports via drag & drop.

Improvements

- [WD-16084[7]] - The job HrSyncTaOnEmploymentStateStart can now be run for specific persons/groups only
