

Update 2026-08-21 (4.64.33)

Updated to version [4.64.33](#)¹.

Improvements

Workflow Lists

- The filter that limits the list to people whose requests are in the processing step now shows only people who have an open request with the respective approver, instead of listing all people. This means you no longer have to scroll through the list of all employees to find the person you are looking for.
- For all requests with attachments, you can now click the "**Attachments**" button and download the respective attachments from there for review.

Additional bug fixes were also made.
