4.38.9

Release Notes - Webdesk - Version 4.38.9 - March 24, 2022

Bug

- [WD-13706[1]] - Fixed an issue with the Excel export of getOrgJournal.
- [WD-13803[2]] - Fixed an issue with the PDF export of getOrgJournal that caused only the first page to be exported.
- [WD-13833[3]] - Fixed an issue in getOrgJournal that caused the table to disappear after loading when certain decimal formats and separators were used,
- [WD-13804[4]] - Fixed an issue in getOrgJournal that caused the auto-export function not to work.
- [WD-13805[5]] - Fixed an issue in getOrgJournal that caused an empty context menu to be shown when none was configured.
- [WD-13792[6]] - In absence requests, the vacation entitlement was not displayed correctly when a graduated scale was used. This issue has now been fixed.
