# 4.36.5

Release Notes - Webdesk - Version 4.36.5 - December 28, 2021

## Bug

- [WD-13497[1]] - Improved the stability of the HR-Expert - Time synchronization.
- [WD-13519[2]] - Fixed an issue that caused complex mapping scripts to return incorrect values in the HR-Expert - Time synchronization.
- [WD-13520[3]] - Fixed an issue that caused fields used by the HR-Expert - Time synchronization not to be displayed correctly as read-only.
- [WD-13558[4]] - Fixed an issue in the correction client when the person only had view permissions for themselves.
- [WD-13562[5]] - Fixed an issue in contract types with dynamic fields.
- [WD-13564[6]] - Fixed an issue when creating XML form customizations.
