4.17.0

Release Notes - Webdesk - October 30, 2020

Bug

- [WD-11807[1]] & [WD-11825[2]] - Fixed issues where names in client-side rendered reports disappeared when using the filter or when paging to another page and then going back using the "Back" button
- [WD-11871[3]] - Fixed an issue where PDF/Excel export of reports caused Webdesk to hang
- [WD-11917[4]] - Fixed an issue where HTML export of reports did not work
- [WD-11940[5]] - Fixed an issue where standard reports delivered empty Excel files

New Feature

- [WD-11694[6]] & [WD-11696[7]] - Additional details can now be displayed in the "Full-time equivalent calculation" report
- [WD-11701[8]] - Added additional columns to the "Full-time equivalent calculation" report
- [WD-11748[9]] - Added salary statement upload function

Task

- [WD-11811[10]] & [WD-11906[11]] - Added and adjusted German translations

Improvement

- [WD-11723[12]] - Added document names to the deletion log
