

The calendar provides an usefull overview for the planning of part/fulltime absences (holidays, seminars, illness, ...).

The arrow-button allows you to scroll into the future or past. Mit den Pfeil-Buttons kann ein Jahr vor- und zurückgeblättert werden.

The screenshot shows a web-based calendar interface. At the top, there's a header with a logo and the word 'Kalender'. Below it, a navigation bar includes a back arrow, a year selector set to '2007', and a grid of days from 01 to 27. The main calendar area displays the months of January, February, March, April, and May. A pop-up window titled 'Info' is open over the date 10.01.2007, providing details about a meeting: 'Tageskalender 10.01.2007: Czech, Eva-Maria' from 11:00 to 15:00, titled 'Besprechung mit Team'.

**Attention:** Appointments (calendar entries) from the Groupware-System (Notes or Exchange) are only available, with an activated Calendaring Module.
