4.15.0

Release Notes - Webdesk - September 10, 2020

- [WD-11536[1]] - It is now possible to control access to documents via role permissions
- [WD-11083[2]] - New connector PoRestEndpointConnector, which can be used to retrieve data from external REST services
- [WD-10998[3]] - Updated the version of the Eclipse BIRT Engine to 4.8.0
- [WD-11526[4]] - The job deleteOldWfData now also removes other objects that were created by processes, and not just the process itself
- [WD-11537[5]] - New job that deletes documents in specific folders that are older than a specified period
- [WD-11564[6]] - In the action evm_showEvents, it is now possible to display only events that are no more than N months in the past
- [WD-11563[7]] - It is now also possible to use the query limit in the action evm_showRoomCalendar
- [WD-8243[8]] - Improvement of the confirmation dialog in the mobile view of Webdesk
- [WD-10085[9]] - Improvement of the travel expense report user interface
- [WD-10306[10]] - Improvement of the user interface of report definitions in the configuration of the action ptm_getOrgProjectEfforts
- [WD-11021[11]] - Usability improvements of the filter panel in the request lists
- [WD-11274[12]] - Usability improvements of the absence client
- [WD-11292[13]] - The default action of the correction client now displays additional fields
- [WD-11574[14]] - Added the missing text module for the booking credit in the daily model administration
- [WD-11636[15]] - Fixed an issue where the permissions of the action po_editImage had no effect when the user tried to change the profile picture in their personal information
- [WD-11659[16]] - Fixed an issue where the number of rows in reports was not displayed when SQL Server is used
