4.59.29

Release Notes - Webdesk - Version 4.59.29 - June 18, 2025

Improvements

- [WD-18863[1]] - Introduced a new option to address system messages to subgroups as well
- [WD-18867[2]] - New extended attribute in the employee appraisal allows backdating of the meeting date and offers more flexibility in handling the appraisal process

Bug Fixes

- [WD-18804[3]] - Fixed an error when entering times on Saturdays in the correction client
- [WD-18819[4]] - Recalculating and display refresh for editable columns did not work as expected in the correction client
- [WD-18875[5]] - Corrected the incorrect calculation of the cancellation deadline in the Event Assistant
- [WD-18876[6]] - Visual adjustments in the assistant step and in the standard menu
- [WD-19030[7]] - The display of attachments in the workflow list was missing with long load times – timeout increased to 10 seconds
- [WD-19021[8]] - Fixed an error when saving acknowledgeable messages
