4.5.38

Release Notes - Webdesk - Version 4.5.38 - March 10, 2020

Bug

- [WD-3726[1]] - New feature: Billing definitions for other types of vehicles
- [WD-10646[2]] - Improved error message for overlapping billing definitions
- [WD-10207[3]] - Improved cache loading speed
- [WD-10526[4]] - Improved mobile view of Switch User
- [WD-6936[5]] - Fix for an issue where it was not possible to open a process in a specific state
- [WD-10448[6]] - Fix for an issue in business trip requests where the order of the routes was not saved
- [WD-10489[7]] - Fix for an issue where not all processes could be selected in the filter of the WF lists
- [WD-10528[8]] - Fix for an issue where a daily program could be assigned to a client even though it is already used for several different clients
- [WD-10551[9]] - Fix for an issue in billing definitions where the "Daily deductions" parameter did not work correctly
- [WD-10558[10]] - Fix for an error when filtering absence reasons
- [WD-10606[11]] - Fix for an error in the date input of business trip requests
- [WD-10611[12]] - Fix for an error in the auto-fill of foreign legs
- [WD-10637[13]] - Fix for an issue where the "End" button in business trip requests had no effect
- [WD-10641[14]] - Fix for an error when importing departed employees
- [WD-10651[15]] - Fix for an issue where persons from other clients could not be seen in the person search even though the user has the permissions to do so
- [WD-10684[16]] - Fix for an issue where breaks in daily programs could be made longer than the break frame allows
- [WD-10857[17]] - Fix for an issue where the "Refine selection" function of on-call duty selected the wrong days
- [WD-7960[18]] - Fix for an issue where mileage allowance was calculated for private vehicles
- [WD-10653[19]] - Fix for a display error in the person information in the WF lists
- [WD-9977[20]] - Fix for a display error in HR-Expert
- [WD-10289[21]] - Fix for a display error in the popup menu of client prefixes
- [WD-10443[22]] - Fix for a display error in the account report
- [WD-10438[23]] - Fix for a display error in the person-specific time tracking fields in HR-Expert
