4.2.2

Release Notes - Webdesk - Version 4.2.2

Bug

- [WD-8251[1]] - HR-Expert: the second reason of employment change in future is not saved
- [WD-8261[2]] - Get my open ToDos: Filter shows no processes when all persons are selected

Bug

- [WD-7210[3]] - Absence code "Attendant" which has productive=true is falsely included in a REST response for productive=false
- [WD-7994[4]] - "Now"-Button of time chooser does not fill with the current time, but an earlier one
- [WD-8161[5]] - Creating a new kiosk fails as automatic techuser generation fails due to number generator service not properly incrementing numbers
- [WD-8233[6]] - HR-Expert: Error P19 when changing the validity of a role assignment to the past date
- [WD-8282[7]] - You cannot open past secondary jobs to see the details
- [WD-8304[8]] - ArrayIndexOutOfBoundsException when trying to access alfresco via dm_folderExplorer
- [WD-8314[9]] - React based Action breaks on subsequent loads
- [WD-8352[10]] - Buttons don't work when adding user picture which has none yet
- [WD-8375[11]] - React/Typescript integration broken after re-configuration of webpack + dependencies
- [WD-8377[12]] - Exception when opening a report with translation of selectionlists activated

New Feature

- [WD-7970[13]] - "Edit Project Times" should support "Enforce 0min effort duration"

Task

- [WD-6726[14]] - Delete Person-related data in TM module
- [WD-8298[15]] - Webdesk build fails on webdesk-tools-js when not connected with company network

Improvement

- [WD-7639[16]] - Deleting a kiosk entity should also delete its association to projects
- [WD-8188[17]] - Button with dropdown menu
- [WD-8322[18]] - Provide Access to viewpermissions in Rest-Endpoints
