4.0.27

Bug

- [WD-5725[1]] - Improve Dialog/Layout behavior in doRescheduling.act
- [WD-6310[2]] - Wrong "entry count" when displaying the sums table in a configuration of ta_getOrgJournal
- [WD-6634[3]] - Order by Timezone is not working
- [WD-6666[4]] - Basic informations should not look like a table
- [WD-6667[5]] - Too many encapsulated boxes
- [WD-6668[6]] - Help text is not helpful at the bottom
- [WD-6669[7]] - Textfields in wrong place
- [WD-6670[8]] - Add document (Dokument hinzufügen) Button should be aligned left
- [WD-6672[9]] - Can't enter multiple event days (fields don't apear)
- [WD-6674[10]] - Little optical issues
- [WD-6678[11]] - Buttons should be alingned left
- [WD-6679[12]] - Too many boxes
- [WD-6683[13]] - Cannot export Connectors
- [WD-6684[14]] - Company logo is missing
- [WD-6685[15]] - Too much free space
- [WD-6699[16]] - Spacers divide the form and create unnecessary space
- [WD-6704[17]] - Changing skin as sadmin must be executed 2 times
- [WD-6720[18]] - Autocomplete on costcenter in event assistant not working
- [WD-6721[19]] - Table design wrong
- [WD-6722[20]] - Create interface for providing personal data of related modules to PDF export of personal data report
- [WD-6737[21]] - Validation for "Termination Date" is missing in termination dialog
- [WD-6745[22]] - Regression: All activities of existing efforts are displayed wrongly after auto-refresh in PTM stop-watch
- [WD-6770[23]] - Error when you save a new Mandant
- [WD-6803[24]] - Start button causes an exception
- [WD-6805[25]] - Adding expense to Travelfolder causes a NPE when reaching tab 'calculated costs'
- [WD-6821[26]] - NPE in ptm_doProjectTimeBooking

Epic

- [WD-6718[27]] - Make the Event Management Assistant responsive

Improvement

- [WD-6626[28]] - Display audit-log information also on relations
- [WD-6744[29]] - Implement cross-field validation for all fields that depend on each other

- [WD-6828[30]] - DoRescheduling: content in "New Rescheduling block" in classic is too narrow

New Feature

- [WD-6716[31]] - Notice for open approvals in last month when mouse is over the monthly approval button
- [WD-6717[32]] - No import of bookings on public holidays should be possible

Task

- [WD-6157[33]] - Release Webdesk using multi-module-maven-release-plugin
