4.56.3

Release Notes - Webdesk - Version 4.56.3 - March 8, 2024

Bug Fix

- [WD-16702[1]] - Fix for an issue in the action ta_getOrgJournal that caused the application of filters in the search form not to work properly
- [WD-16593[2]] - Fix for an issue that caused an error message as soon as persons were queried in the attendance journal who were absent due to a previously hidden absence reason
- [WD-16694[3]] - Fix for an issue in Personalwolke Travel that occurred in the action tm_editKmBillingDef and caused autocomplete of trip types to fail
- [WD-16752[4]] - Fix for an issue in the payroll area that caused the admin role to be ignored in the action ps_editSalaryAccounting
- [WD-16749[5]] - Fix for an issue in JavaScript caused by a non-thread-safe local variable in PoConnectorSyncServiceImpl .

Improvement

- [WD-16691[6]] - The default visibility setting when creating a new Alfresco page is now "private".
