Loose Groups

Under **Loose groups** you can define the affiliation to several non-hierarchical groups. The number of loose groups to which the employee can be assigned is unlimited.

WARNUNG

Note: The user must always be assigned to the loose group xx-ALLE - otherwise no menu tree is available after login!

| Groups Roles Action Permissions In competence of roleholders Cache Login Attempts NFC Tags Modules | | | | |
|--|------------|------------|------------|--------|
| with History | | | | |
| aw duanb | Valid from | | Valid till | |
| elect an Option | - | m | | |
| d | | Valid till | | Delete |
| 9-Admin (Alle Administratoren) 9-ALLE (Alle Mitarbeiter PW Prof) | | 01/01/3000 | | |
| P-KloskAdmin (PP-KloskAdmin) | 1 | 01/01/3000 | | |
| P-Management (Alle Manager) | | 01/01/3000 | 8 | |
| w-Management (Alle Manager) 9-Mitarbeiter (Mitarbeiter Landwirtschaft) | 1 | 01/01/3000 | m | 1 |
| w-Mitarbeiter (Mitarbeiter Landwirtschaft) 19-Travel (PP-Travel) | | | | |
| P-Iravei (PP-Iravei) | | | | |

(This screenshot shows the 3 standard loose groups. The new user must be assigned at least to the group xx-ALLE (PP-ALLE).)

WARNUNG

In order to offer the user **additional rights** (also in the Project-Time and Travel modules), he must also be added to one of the following loose groups!

Personalwolke Time:

| PP-ALLE | PP-ALLE + PP-Management | PP-ALLE + PP-Admin |
|--|---|---|
| Standard-Group - every user MUST be assigned to this group! | Management-Group - users who are added to this group receive additional menu items for the evaluation of company employees - Accounts evaluation ¹ , Calendar overview ² , Yearly calendar ³ und Statistics ⁴ . | Administrator-Group -Users added to this group get additional menu items for managing the Organigramms ⁵ , People ⁶ , Grou and Rolls ⁸ , as well as the ability to Switch users ⁹ to view the Personalwolke from the perspective of the selected user. |

Of course it is also possible to add a user to all loose groups and thus unlock the administration AND management menu items to the user or a simple standard user is created which is only added to the loose group PP-ALLE.

WARNUNG

The menu item Time management --> Correction client represents a special case. Only persons who have assigned the Personnel role can use this correction client (regardless of the loose groups to which they have been added) to change bookings. In some cases users can also use correction client for tracking time.

Personalwolke Travel

If you are a user of the "Travel" module, the following loose groups are also available for managing user rights:

| PB-TM-User | PB-TM-Manager | PB-TM-Admin |
|--|--|---|
| Apply for / account for trip (depending on the definition according to the furnishing workshop) Info / My travels | Management / Travel of my employees | Administration / Travel Expenses / All Trips Management / Travel of my employees |

Personalwolke Project-Time

If you are a user of the "Project Time" module, the following loose groups are also available for managing user rights:

| PB-PTM-Usr | PB-PTM-Mgm | PB-PTM-ProjMngr | PB-PTM-Admin |
|---|--|---|--|
| Project time booking Enter project time Info / My project times | Enter project time Management / project times of my employees | Management / Project expenses | Enter project time Administration / Project time / Projects Management / project times of my employees |

How to add user to a group

We select the **PB-ALLE** group and click Save. This assigns the employee to the loose group **PB-ALLE**.

In summary, it can be said that when creating a new person regarding the groups / roles, the following things must be considered:

- Person has been assigned to exactly one hierarchical group.
- Person has been assigned to the loose group PB-ALLE.
 - Person gets optional additional rights by adding to loose groups
 - PB management and / or PB admin (when using the time module)
 - PB-TM user / PB-TM manager / PB-TM admin (when using the travel module)
 - PB-PTM-User / PB-PTM-Mgm / PB-PTM-ProjMngr / PB-PTM-Admin (when using the project time module)
- Person gets optional additional rights (correction client) by adding the role Personnel

Role assignment for managers and personnel is explained in the next section.

Tab: Roles

Under **Roles**, you can find an overview of the roles assigned to this person in the company. The following screenshot shows that the person has not yet been assigned a role.

| Settings | Groups | Roles Action Permissions In cor | npetence of roleholde | rs Cache | Login At | tempts | NFC Tags | Modules | |
|---------------------------------------|------------|---------------------------------|-----------------------|--------------------------|----------|------------------------|----------|---------|---|

| | | | | | | | | | Entries 1 - 3 of 3 \parallel \ll $<$ 1 \checkmark $>$ \gg Lines: 5 |
| Name | | Competence target | inherited from | Valid from | | Valid till | | Ranking | Delete / Edit |
| | | | | | | | | | |
| 🎄 Perso | onal | PersonalWolke Prof | | 10/06/2013 | m | 01/01/300 | 00 | 1 | ê 🖌 |
| PersoVorge | | PersonalWolke Prof |)H) | 10/06/2013 19/01/2016 | | 01/01/300 01/01/300 | | 1 | |

If the employee is now to be assigned another role (superior, personnel), this is done by clicking on the **New Role Holder** button.

| ettings | Groups | Roles | Action Permissions | In competence of roleholders | Cache | Login Attempts | NFC Tags Modules | | | | |
|---------|-------------|-------|--------------------|------------------------------|--------|----------------|------------------|------------|----------|---------|---|
| | | | | with Hist | tory 🗌 | | | | | | |
| New Ro | ole Assignm | nent | | | | | | | | | C |
| New R | oleholder | | | Competence target | | Valid from | | Valid till | | Ranking | |
| | | | | | | | | | m | 1. | |

• New role assignment Selection of the role

personnel) to be assigned to the employee.

- Competence target refers to the person/group for which the employee is to be responsible.
- Valid from / Valid to describes the period in which the employee is assigned the selected role.
- The **order** determines the deputy (sequence 1 = superior, 2 = deputy, 3,4 = if several persons are defined as deputies, the system determines who receives an application for processing).

Example: New role assignment "superior", competence objective: group, "PB-ENTW (development)" - this means that the person performs the role of superior for the group PB-ENTW, i.e. all applications submitted by a person from the group PB-ENTW and requiring approval / review by the role of superior end up with this person. Of course, a special person could also be appointed instead of the group. In this case, the Superior role only applies to the person who was defined.

A person can be assigned several roles with different competence goals!

| ettings Groups Roles | Action Permissions | In competence of roleholders | Cache L | ogin Attempts NFC T | ags Modules | | | | |
|----------------------|--------------------|------------------------------|---------|---------------------|-------------|------------|---------|---------|---|
| | | with Hist | ory 🗌 | | | | | | |
| New Role Assignment | | | | | | | | | 0 |
| New Roleholder | | Competence target | | Valid from | | Valid till | | Ranking | |
| | | | ~ | | m | | | 1 | |

A click on Save defines that the employee is now the manager of the PB-ENTW (Development) group.
