Delta Write Connector

TODO

Configuration of the connector:

- **Parent connector**
- **Name**
- **Data flow direction:**
  - Data target
- **Description**
- **Backing connector:**
  Here a previously created database connector is selected, in which it is defined where the data is to be stored
- **Name of the status column:**
  Identifies the column in which the change status is recorded (e.g. entry changed, entry new, entry modified)
