Handy-Nummer

Büro Telefonnummer

Büro Faxnummer

In this area *private* and *business* telephone numbers and email addresses can be maintained.

Please note that the **business email address** of the employee is used by the system for all notification functions. Also a [Login](#)<sup>1</sup> with the **business** email address (instead of the user name) into the personnel cloud is possible, if the employee is an active user.

The telephone numbers maintained here can also be displayed in other views (especially the [Attendance list](#)<sup>2</sup> in time recording) if this has been configured by the administrator.

The recommended **input form** for this would be : +43 xxx xxxxxxxxxxxx

When using a smartphone, you can click on the phone number to copy it to the phone's call function and make a phone call by pressing the dial function.
