

Administration

Here you find the **manual for administration and configuration** of Webdesk EWP. The application has a **modular structure** and offers a multitude of possibilities for individual **adaptation** of the program to the requirements of your company.

NOTIZ

*In order to make the **settings** described in this chapter, you must have **extended administrator rights** in the system. The activated permissions and modules of Webdesk EWP differ depending on the configuration in each company.*

The **Administrator's Guide** is divided into the following parts:

- [Portal & Organisation¹](#)
General administration of organizational units (person master data, groups, etc.), authorization control, layout adjustment, system settings
- [Time & Attendance²](#)
Setting and configuration of functions for time recording, time correction, overtime, time schedules, etc.
- [Travel³](#)
Setting and configuration of functions for travel planning, travel expense accounting, interface to payroll accounting, responsibilities, etc.
- [Workflow⁴](#)
Creation and configuration of your own, tailor-made workflows including allocation of responsibilities and approval processes
- [Groupware⁵](#)
Settings for integration of external planning tools such as groupware calendars (IBM Lotus Notes, Microsoft Outlook) and synchronization with Webdesk EWP functions
- [Reporting⁶](#)
Creation and configuration of individual Eclipse BIRT report definitions based on data collected by Webdesk EWP
- [Projecttime⁷](#)
Settings in connection with the recording of project times and their allocation to customers, cost centers, groups, etc.
