

Update 2021-02-23

Upgraded to version 4.21.1.

This resolved the tickets of the following versions:

- [4.21.0](#)¹
- [4.21.1](#)²

General Changes

#1 Select Identical Actions with a Single Click

Requests can now be approved, rejected, or reviewed in bulk. A corresponding button has been added that allows all requests to be selected with a single click.

[WD-11872](#)³

#2 Sorted Display of VAT Values in the Travel Expense Report

The VAT values of the receipts in the travel expense report are now displayed in sorted order.

[WD-12333](#)⁴

#3 Entering the Time 00:00 Is Now Possible

It is now possible to enter 00:00 as an end time in the correction client.

New Customizing Options

As part of a customizing project, the following features can be activated for you. For more information, contact us at sales@workflow.at.

#1 Manual Entry of Hours in Monthly Project Time Tracking

As part of a customer project, a new Webdesk action was developed that lets you distribute your working time across projects as a percentage once per month. This action has now been extended so that working times can also be entered in hours or minutes. The share of the times already entered, in %, is updated automatically. If you are interested in monthly project time tracking, we will gladly provide further information.
