

Update 2021-05-03

Upgraded to version 4.26.0.

This resolved the tickets of the following versions:

- [4.25.0](#)¹
- [4.26.0](#)²

General Changes

#1 Automatic Start for Project Time Bookings

When the time tracking and project time tracking modules are used in combination, a start booking of project time also automatically clocks the person in for time tracking. This parameter must be activated in the personal settings.

#2 Autocomplete for Daily and Weekly Schedules

The vacation fields in the weekly schedule are now completed automatically when you start typing in the corresponding field. This requires that the corresponding vacation schedule is already stored in your Personalwolke.
