

# Adjusting an employee's accounts

The correction of an account (in this example the balance account) can be done by using the Correction-Client.

## Approach

You will find the correction client in your menu tree under **"Administration"** --> **"Time management"** --> **"Correction-Client"**.

In the next step it is necessary to select the appropriate employee (here: Rudi Renner, marked in red) for whom a corresponding correction has to be made. The employee can be selected either by clicking on the 3 dots or by entering the name directly.

Then it is necessary to select the day for which the correction should be valid (marked in green, in this case we want a correction for the 03/05/2021). Now click on the selected date.

This will take you to the day view of the corresponding employee for the selected day:
