

Reiter Kontaktinfos - Webprofile

The screenshot displays the 'Webprofile' tab within a contact management application. At the top, there is a navigation bar with various tabs including 'Stammdaten', 'System', 'Erw. Kontaktinfos', 'Zeiterfassung', 'Organisation', 'Qualifikationen', 'Beschäftigung', 'Aufgaben', 'Entwicklung', 'Finanzen', 'Bildung', 'Angehörige', and 'Dokumente'. Below this, a sub-navigation bar contains 'Telefon und E-Mail', 'Privatadressen', 'Geschäftsadresse', 'Sofortnachrichten-Dienste', and 'Webprofile'. The 'Webprofile' tab is selected, showing a table with one entry. Above the table are two buttons: 'Neu' (blue) and 'Zeile löschen' (red). The table has columns for 'Webadresse', 'Primäres Profil', 'Dienst-Anbieter', 'Gültig von', and 'Gültig bis'. The entry shows 'www.facebook.com' as the web address, a checked box for 'Primäres Profil', 'facebook' as the service provider, a validity start date of '23.08.2017', and an end date of '01.01.3000'. Below the main table, there is a section for 'Frühere Zuordnungen (0 Elemente)' with a similar table structure.

Webadresse	Primäres Profil	Dienst-Anbieter	Gültig von	Gültig bis
www.facebook.com	<input checked="" type="checkbox"/>	facebook	23.08.2017	01.01.3000

Webadresse	Primäres Profil	Dienst-Anbieter	Gültig von	Gültig bis
------------	-----------------	-----------------	------------	------------

This tab differs only minimally from the (Advanced) Contact Info - **Instant Messaging Services** tab.

In this tab you can enter web services (e.g. facebook, Skype, Google+).

In the text field "**Web address**" you can specify how the profile is to be found, also the **service provider** can be specified in a text field. With a tick 1 profile can get the status **primary**.

In this tab, the **validity period** is not adjusted by the system, but can be edited manually at any time.

Expired accounts are listed below.

On this screen there are the two system buttons "New" for entering a new address and "Delete line" to remove an entry from the list.
