## Behaviour of the Absence reasons

If a booking is made on a day on which a full-day absence reason is entered, the following absence reasons are not deleted:

- Vacation
- Time compensation
- Training

The following absence reasons are deleted and only the entry appears in the journal:

- Sick
- Business trip

**Examples:**

- Vacation on 02.07.2015 and booking from 08:00-10:00 - both the reason for the error and the booking are displayed in the journal:

**Approval process**

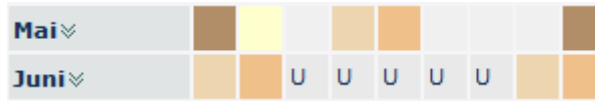

*Applicant* --> *Manager* for approval

**Good to know:**

As long as the absences request is on its way (status Unauthorized), the reason for the absence is already entered in red in the calendar.

Once a request has been approved, the absence reason appears in black on the relevant days and all work-relevant data is updated (for example, remaining leave or planned leave).

Click on the U field in the calendar to obtain detailed information on the request (examples of an unapproved and approved absences request):
