

# Time correction

## General

**Time correction requests** are used to made bookings that have been forgotten, missed or not made due to other circumstances.

The user must enter the date and time of the correction booking in the form.

If time has to be booked in past, the **absence reason "present"** must be entered. The comment field can be used for comments for the approver (supervisor). The comment will later appear together with the request details in the [Uncompleted Requests](#)<sup>1</sup> list (to be found under the menu item Workflow) for the applicant and in the [Open ToDos](#)<sup>2</sup> list for the approver (supervisor).

Possible reasons for a time correction are:

- Present (e.g.: in case of forgotten booking at the beginning of the working day)
- Doctor's visit
- Business Trip
- Telework
- Various absences

The button "**Show Journal**" serves here as a possible help for filling out the request.

The request procedure is started by clicking on the "**Start Process**" button and the request is sent to the supervisor for approval. The supervisor finds the time correction request under the menu item **Workflow - Open ToDos**<sup>3</sup>.

The screenshot shows a web form titled "Time corrections". At the top left, there are two buttons: "Start process" (blue) and "Show Journal" (grey). The form itself is a white box with a light border. It has a "Date" field with the value "19/05/2021" and a calendar icon. Below that is the "Intervals" section, which contains two rows of time slots. The first row has "08:00" and "12:30" with circular icons, and a dropdown menu set to "present". The second row has "13:00" and "16:00" with circular icons, a dropdown menu set to "Telework", and a red trash icon. There is an "Add" button below the intervals. The "Comment" field contains the text "Forgot the booking.". Below the form is an "Attachments" section with a dark header and a table with columns "Filename", "Size", and "Attached at". There is an "Add attachment" button below the table. At the bottom of the form area, there is a "Start process" button.

*(In this example, a time correction request is submitted for 19.05.2021. The employee has generally forgotten to book and therefore creates the request for 08:00-12:30 and 13:00-16:00. In the first period, he or she was at work while in the second period, he or she performed telework.)*

After starting the process, you will be forwarded to the **Uncompleted Requests** overview where you will see all your open applications sorted chronologically by the time they were created.

Date of application	Author of Process	Performers	Details	Progress	Action(s)
May 20, 2021 1:47:10 PM	Rosso Claudia (000210342, PP-AGB1)	Renner Rudi	⚠ Zeitkorrektur Timecorrection May 19, 2021 8:00 AM - 12:30 PM ( present ) 1:00 PM - 4:00 PM ( Telework ) Comment : Forgot the booking. <a href="#">Details</a>	☆ Rosso Claudia	<input type="checkbox"/> Delete <input type="checkbox"/> Print

**WARNUNG**

**Attention:** If a time correction is made for the current day, a booking must already exist on that day, otherwise no correction is possible.

## Approval process

*Applicant (Requestor) = Manager* for approval

## Corrections - Principle: Overwrite (applies to all requests that can be made)

Time corrections are applied according to the principle of overwriting:

New posting intervals are stronger than existing intervals. If there is an overlap, the existing intervals are deleted or shortened. The following diagram illustrates this principle. It shows existing booking intervals of a day, which are corrected by a subsequent booking.

**existing booking interval**

**correction**

**result**
