In the column "**Client**" you can see to which client this week program is assigned. If the column is empty, then it's a standard weekly program from Personalwolke, which is available to all but can't be edited. Every weekly program is assigned an **ID** by the system. This ID cannot be changed.

With "weekly program(s)" you can see how many week cycles this weekly program contains. For example, if there is a 2, this means that this weekly program has 2 week cycles. The week hours of the respective weekly program are shown in the column **"with these hours per week"**. If a weekly program has multiple week cycles, then you will see the respective week hours of the week separated by a comma.

ΝΟΤΙΖ

Basic info: A weekly program consists of several daily programs. There must be one day program for each day of the week, i.e. Monday, Tuesday, Wednesday, Thursday, Friday, Saturday and Sunday. In addition, holidays such as Christmas, New Year's Eve and public holidays must also be taken into consideration.

Create a new weekly program

If you click on the button **''new weekly program''**, an editor will open where you can create a new weekly program.

Setup Weekly P	Program					
🖹 Save 🗲 Back						
Bas	Client sed on this template Short name Name		•	holiday (special days) defi Client - Choose which dii program to a person. Wee thus available to everyone Based on this template by clients in the field abo	nition. Aftr saving you can change them further ent should use this weekly program. The client kly programs will be available only to the select - The new weekly program is created as a copy	specific. The newly created weekly program contains a single week and or add additional weekla and holdery definitions. admin can see and edit it and also select it when assigning the weekly edit end. If no client is selected, the new weekly program is public and the selected weekly program. The list of weekly program is public weekly programs (available to everyone), otherwise the list
	Hours per week				ame of the weekly program.	
				Target Time Hours - Ent can select one of them.	which daily program you want to use for that	um. aly programs, that have this target time, are going to be listed and you lay. After opening the choose; you can see additional information like
Daily programs for working	g day, saturday and su	ndav		Holidays		
Days in the week	Target Time Hours		Daily program	Days in the week	Target Time Hours	Daily program
Monday		Ø		Holiday Monday	0	
Tuesday		0		Holiday Tuesday	0	
Wednesday		0			0	
Thursday		0			0	
Friday		0			Ø	
Saturday		0		N	0	
Sunday		0		Holiday Sunday Christmas	0	P

- Select a template The daily programs are also deposited in the template. Change these as desired. In fact, that the holidays are already shown in the template, you save a lot of time.
- Enter a "short name" and a "long name" for your weekly program.
- The hours per week are calculated automatically by the system based on the day programs that are deposited in the weekly program.

First select a **day target time**. The system will show you in the colum "daily program" all daily programs which contains this day target time.

Now it is necessary to fill all the other days in the weekly program. Here an example how to create a 38:30 weekly program:

Daily programs for wo	rking day, saturday and sunday	/ ·		
Days in the week	Target Time Hours		Daily program	
Monday	07:42	Ø	(1) 7:42 - G/7,42	
Tuesday	07:42	0	(1) 7:42 - G/7,42	
Wednesday	07:42	0	(1) 7:42 - G/7,42	
Thursday	07:42	0	(1) 7:42 - G/7,42	
Friday	07:42	0	(1) 7:42 - G/7,42	
Saturday	00:00	Ø	(2) 0:00 - G/0	
Sunday	00:00	0	(2) 0:00 - G/0	

In this example you can see that the working time from Monday to Friday is 07:42. On Saturday and Sunday the working time is 00:00.

You can also enter the holidays of the weekly program. If you have selected a template and the holidays are already entered, then these are automatically imported.

Days in the week	Target Time Hours		Daily program	
Holiday Monday	00:00	Ø	(2) 0:00 - G/0	
Holiday Tuesday	00:00	Ø	(2) 0:00 - G/0	
Holiday Wednesday	00:00	Ø	(2) 0:00 - G/0	
Holiday Thursday	00:00	Ø	(2) 0:00 - G/0	
Holiday Friday	00:00	Ø	(2) 0:00 - G/0	
Holiday Saturday	00:00	Ø	(2) 0:00 - G/0	
Holiday Sunday	00:00	Ø	(2) 0:00 - G/0	
Christmas	03:51	Ø	(3) 3:51 - G/3,26

Holiday type Leopoldi (NÖ)		Ø		
Holiday 13		Ø		
Holiday 14		Ø		

After you have saved the weekly program, you will be automatically forwarded to the edit mode so that you can still fine-tune the weekly program.

Edit weekly program

If you click on the button **''new weekly program''**, an editor will open where you can create a new weekly program.

You can edit existing weekly programs. Even, when you create a new week program, you will be forwarded directly to the edit mode of the weekly program.

 Holiday Holiday Holiday IS

Here you can choose from the following days:

• working day = holiday

Here you define which daily program has to be used if a holiday is on a Monday, Tuesday, etc. If you do not deposit any holidays in the weekly program, the program will take the working day as a holiday, which is deposited in the tab "Daily programs for working day, saturday and sunday".

ΝΟΤΙΖ

Example: Monday is a holiday and there is no "holiday Monday" deposited in the weekly program. In this case, the system uses the normal daily program for Monday on the holiday. If the daily program has a target time of 08:00, then the employee in this case would have a target time of 08:00 on the holiday. Therefore, a corresponding daily program should also be deposited for each holiday.

Christmas

Here you set the daily program for Christmas.

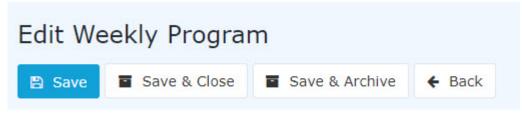

New Year

Here you set the daily program for New Year.

Saving a weekly program

The following options are available regarding the weekly program:

you

Once the weekly program has been assigned to a staff member, you have two options:

- 1. **Copy:** Copies the weekly program 1:1 and creates a new one. The reason why you should copy the weekly programm is, that there is a clear distinction from the old one.
- 2. **Save and rerun daily account:** saves the changes and calculates all employees who have this weekly program back to the day on which this weekly program was run for the first time. **ATTENTION:** Because of the retrograde calculation, the values in the past can change!

If the weekly program is not yet assigned to an employee, then it's simply saved.

By the way, you can use "Save & Archive" to remove weekly programs that are no longer needed.
