

Display of the process details

By clicking on the info button or on the word "**Details**" in the "Detail" column, you will receive more extensive information on the present application or task.

The screenshot shows a table titled "uncompleted Requests". At the top, there are buttons for "Perform marked actions", "Refresh", "Show Filter", and "Hide Progress", along with a "Print" button. The table has a header with columns: "Date of application", "Performers", "Details", "Progress", and "Action(s)". A single row is visible with the following data:

Date of application	Performers	Details	Progress	Action(s)
Jun 1, 2023 1:33:31 PM	Sonne Susanne	Vacation Absenceentry vacation_fullday Jul 1, 2023 - Jul 2, 2023 Details	Adam Angelika Sonne Susanne Please contact me concerning your substitute!	<input type="checkbox"/> Delete <input type="checkbox"/> Print

At the bottom right of the table, it says "1 Entry Lines: 10" and "1 Entry".

The details view contains the following tabs:

Form

All data from the application form can be found here. In the example below, a holiday request is made. In addition to the application data itself (from-to date, reason for failure, comment, etc.), the example also contains an overview of the current holiday entitlement and the number of holiday days remaining after the application has been approved. Depending on the type of application, any documents can be attached here.

The yellow information window shows a simple explanation of the application in question.

Variables

The "Variables" tab contains a technical overview of variables and their values, each of which describes specific information about the application. This view has no specific function for the end user, as all the information contained here is clearly displayed elsewhere in the application - this tab is therefore only relevant for administrators or Workflow support.
