

Job Start Connector Link Sync

TODO

Mit der "Hinzufügen"-Schaltfläche werden die Konnektoren für die Synchronisation definiert:

The screenshot shows a web-based configuration interface for a 'Job'. At the top, there's a header with a clock icon and the word 'Job'. Below this is a toolbar with buttons: 'Speichern' (Save), 'Speichern & Schließen' (Save & Close), 'Zurück' (Back), 'Job starten' (Start Job), and 'Löschen' (Delete). The main form has two sections. The top section contains a 'Name' field with the value 'ImportStammdatenAusIF6020', an 'Aktiv' dropdown set to 'Nein', and a 'Beschreibung' text area. Below these is a dropdown menu showing 'Jobkonfiguration abgeleitet von Job' with the value 'startConnectorLinkSync'. The bottom section is titled 'Jobkonfiguration' and contains a table with two columns: 'Name' and 'Löschen'. The table lists two connectors: 'Gruppenconnector' and 'Personenconnector', each with a red 'X' icon in the 'Löschen' column. A 'Hinzufügen' (Add) button is located at the bottom of this section.

Name	Löschen
Gruppenconnector	
Personenconnector
