Change personal data

After the relevant staff member has been found, you can click on him or her to access the overview of his or her personal data. Here, the data already entered (**first name, last name, username, e-mail**, etc.) can be changed or the fields that are still empty can be filled in. The checkbox **Active user** indicates whether the employee should be able to log in to the personnel cloud. By setting it to inactive, for example, employees who have left the company can be administered, who can then no longer log in, but who still appear in the various evaluations for supervisors/managers!
