

# Permission concept

Authorization management in the Project-Time module is based on the loose groups [losen Gruppen](#)<sup>1</sup> described below.

- **XX-PTM-Usr - Project Time User** - This group is for all users who book project times.
- **XX-PTM-Mgmt - Project Time Management** - This group is for managers. A supervisor can view project times of employees and change them if necessary.
- **XX-PTM-ProjMngr - Project Time Project Manager** - This group is for project managers who can evaluate projects.
- **XX-PTM-Admin - Project Time Administrator** - Project Time Administrators create and manage projects and their associated permissions.

By adding the users to the individual loose groups, they receive the following menu items:

XX-PTM-Usr	XX-PTM-Mgm	XX-PTM-ProjMngr	XX-PTM-Admin
