

Change password (by the user)

Here you will find all information about “Change password” from the user's point of view.

NOTIZ

Further information on the subject of passwords can be found here:

[First Login¹](#)

[Forgot Password²](#)

[2nd-Factor Authentication](#)

[3Assign and Change Password \(by the admin\)⁴](#)

General

There are three ways to log in to the Webdesk

- **SingleSignOn:** after the first login, no further password entry is necessary to enter the system.
- **Password:** this login to the system is activated by the administrator/HR, see "[Assign and change password \(by the admin\)⁵](#)".
- **2nd factor authentication⁶:** individual decision of the employee or general decision of the company.

In Webdesk, the password can be changed in the following ways:

- **Change of password by the user**
User changes his password via a separate menu item in the settings
- **Password change by the administrator**
Password is reset to a defined default password by the administrator

Password change by user

To access the user settings, please click on your profile picture (avatar) or your username in the top right corner in the browser view.

Password change

Your password has been reset or has expired and has to be changed now.

Requirements to password security:

- The password shall contain minimum 1 digits.
- Minimal password length is 8 characters.
- The password shall contain minimum 1 special characters.
- Upper and lower letters are required.
