4.52.3

Release Notes - Webdesk - Version 4.52.3 - June 19, 2023

Bug Fixes

- [WD-14825[1]] - Fixed an issue that caused the sticky header not to match the columns of the actual table
- [WD-15667[2]] - Fixed an issue that prevented the live chat window from being closed in mobile view
- [WD-15681[3]] - Bug fix in resource reservation: validation for dates in the past works again
- [WD-15717[4]] - Fixed an issue in the job TaSyncCalendarDates that occurred when Groupware was linked to LDAP

Improvements

- [WD-15638[5]] - The job executeAndStoreReports now supports the Excel format
