4.55.0

Release Notes - Webdesk - Version 4.55.0 - December 4, 2023

Document Management

- [WD-15981[1]] - It is now possible to download entire folders as a ZIP file in the Folder Explorer

Time Tracking

- [WD-16269[2]] - The CSV export of the monthly journal now uses the text of the column headings for the first row of the CSV file
- [WD-16279[3]] - The absence reason ID is now displayed next to the absence reason in the CSV export of the monthly journal
- [WD-16318[4]] - Fix for an issue in the monthly journal that caused booking comments to no longer be visible in the correction notes

Travel Management

- [WD-15779[5]] - New option when settling business trips using the calendar day method for trips abroad, by which the per diem rate per day of the region in which the most time was spent is selected
- [WD-16272[6]] - New option when settling business trips using the calendar day method not to pay a per diem if all daily deductions of the day are activated and the sum of their factors falls below 100 percent
- [WD-16274[7]] - New setting option in business trip process definitions to prohibit the creation and editing of certain receipts depending on the processing step in the workflow
- [WD-16276[8]] - New option in the configuration of receipt types that makes it possible to set whether attachments are supported. The default setting is that all receipts support attachments
