4.56.6

Release Notes - Webdesk - Version 4.56.6 - March 24, 2024

Bug Fix

- [WD-16765[1]] - Fix for an issue in the action po_editSalaryAccounting that made it impossible to create a CSV file in the payroll area due to an incorrect reference
- [WD-16819[2]] - Fix for an issue in the Correction Client that caused an abrupt jump to the top of the page after switching from the month view to the day view and back and canceling an attempt to edit an entry for a specific date

Improvement

- [WD-16728[3]] - Improvement of the job PoPreloadUserdata, which now makes it possible to configure it in more detail
