4.57.5

Release Notes - Webdesk - Version 4.57.5 - May 14, 2024

Bug Fix

- [WD-16672[1]] - Fix for an issue in project editing in which the icon for canceling an entry was hidden by the use of long project names

Improvement

- [WD-16611[2]] - From now on, most functions offer a link to the matching information in the Personalwolke manual, regardless of whether it is a standard function or a specially configured one. You can find this information under the ? symbol at the top right:

1. https://extranet.workflow.at/jira/browse/WD-16672
2. https://extranet.workflow.at/jira/browse/WD-16611
