Wer ist "Tester" in der Personenliste?

"A user with the surname "Tester" appears in the list of people that I have not created. Where does this user come from?"

Explanation:

Such users were created by the Personnel Cloud team in the course of configuring your company or changing the configurations in order to serve as a template for creating persons.

The test/template users always have the surname Tester and usually have a personnel number that is "only nine" after the prefix (XYZ- 99999).
Such users do not generate any costs for you as a customer of Personalwolke!
