4.57.10

Release Notes - Webdesk - Version 4.57.9 - June 19, 2024

Bug Fix

- [WD-17146[1]] - Fix for an issue in the area of travel request creation that occurred whenever a new travel request was created for a period for which a simultaneous request had previously been rejected
- [WD-17175[2]] - Fix for an issue in travel management that prevented entering invoice values in the part of the display provided for them
