4.58.1

Release Notes - Webdesk - Version 4.58.1 - July 26, 2024

Bug Fixes

- [WD-16731[1]] - Fix for an issue that caused time values in the format hh,mm in the Correction Client to be processed further as industrial minutes (1h = 100 industrial minutes) for accounts that operate in days (e.g., vacation entitlement)
- [WD-17322[2]] - Fix for an issue that caused additional fields to be displayed in Person/Settings/Time Tracking
- [WD-16597[3]] - Fix for an issue in the English-language application that occurred in the travel request process in the "Estimated Costs" tab and caused German receipt names to be displayed instead of English ones
- [WD-17093[4]] - Fix for an issue that caused a change to vehicle time data in the user settings not to be carried over to the vehicle data (tm_showVehicles.act).
- [WD-17153[5]] - Fix for an issue that caused a performance problem when attempting to create a new system message
- [WD-17191[6]] - Fix for an issue that occurred in HR Expert/Reports/Full-Time Equivalent Calculation and, under certain configurations, caused incorrect totals to be displayed
